 Provider of organizational services.

Description of the organisation

Public institution "eMundus" was established in 2009 in order to streamline research and implementation activities in the area of education and concerning with the use and adaptation of information and communication technologies in different spheres.

The mission of eMundus is to actively promote the knowledge society, while creating and developing services mainly related to ICT, innovations, as well cultural aspects, healthy lifestyle, practical adaptation of them in education and community activities, seeking to ensure the quality of cooperation and unity between different generations and different social groups.

The team seeks:

- to find solutions how to solve problems in education sphere in purpose to create effective education environment, which would be available for everyone and will attract the learner;
- to develop critical thinking activities, educational approach towards real-world problems solving, updating educational curricula with new methods of teaching and learning
- to create technological solutions which would be effectively used in education;
- to create possibilities and conditions for lifelong learning while guaranty the quality of educational services;
- to collaborate with different national and international educational institutions (universities, secondary schools, adult education centres, professional schools, etc.), associations, enterprises;
- to find the ways that new methodologies and information and communication technologies would be used in teaching and learning effectively.

eMundus team is composed of experts who have long-lasting experience in management, e-learning development and practise, educational and technological development spheres. Team members take part in various international and national programs since 2006 years, participated, managed and developed previous Socrates, Lifelong learning, now Erasmus+ and European Structural Funds projects. Through many years created relations and collaboration with different institutions has developed strong co-operation and partnerships all over Europe with educational organizations, associations, research and development centers, public authorities.

eMundus team develops and use innovations, follows the demands of society and takes challenges in educational sphere while collaborating with various educational institutions in Lithuania and in Europe. Every year team is always in collaboration with schools, kindergartens, VET schools, universities, teachers qualification centers, private education providers while providing courses, lectures and in projects area. eMundus specialists work on the creation of information systems which are used or adapted to education environments, created systems are used in the universities, kindergartens, VET schools, secondary schools, as well in international education institutions, created portals are used in National and European levels.

eMundus specialists created independent online testing system, which are used by Lithuanian universities teachers, by schools and other educational institutions and enterprises (testuok.lt), online studies video courses platform (studijuok.lt) which was one of the innovative proposed solutions in Lithuania was proposed by our IT specialists and idea was developed and improved in one of Lithuanian university by students who were moderated by lecturer. Beside this we actively work in research field concerned with technologies, education improvement, provide various courses for different target groups, starting from youth, finishing with seniors. Team organizes and moderates events, seminars, conferences are involved into projects planning, management.

Experience of the organization in previous European projects

eMundus team has long lasting experience in projects management, coordination, software systems architecture, development, maintenance, as well in the research area, lecturing. Team members work in the development of new learning approaches, innovative methods, methodologies and creativity developed tools in a wide range of educational and training contexts, including pre-primary, primary, secondary and university education, and vocational and continuous training.

Current EU projects:

Erasmus+ KA2 Strategic partnerships for innovations in Schools education project “Innovative teaching methodology of health friendly nutrition development and practice in pre-primary and primary education” (HealthEDU) (2016 10-2018 09) –

coordinated by VšĮ "eMundus". The aim of the project is to

educate and to form children's, parents', institution employees' healthy nutrition habits, positive attitudes to nutrition and provision of food. To develop and promote health friendly nutrition and health friendly lifestyle principles and awareness in the community, to introduce health friendly dishes in the children menu in education institutions and at home. Very close cooperation with kindergartens and primary schools are developed.

Erasmus+ KA2 Strategic partnerships for innovations project in Schools education “TIK - Tradition and Innovation @Kindergarten” (2017 11 – 2019 10). VšĮ “eMundus” is an official partner. Project aims to improve pre-school pupils' basic and transversal competences through the transnational comparison of

traditional tales.

Previous experience in the EU projects:

LLP Grundtvig Partnership project “Virtual Community Building by Exchanging New Approaches in Teaching” (CUBE) (LLP-GRU-MP-2010-LT-134) – coordinated by VšĮ "eMundus". The main aim of the project was to build the virtual community by exchanging approaches and methods also learning how to integrate information and communication technologies and tools into teaching different subjects, to improve knowledge of adult educators and to help them to provide their lessons in the attractive way.

Projects going on:

LLP Leonardo da Vinci Partnership project “Creating Active Learning Material for Science Educators of Vocational Education“ (LLP-LdV-PRT-2010-LT-0198) VšĮ "eMundus" was official partner. Project aim was to develop active learning based on science education materials for professional vocational development of science educators and tested with learners, course participants. Project activities were focused on better curriculum development and alignment with labor market needs, the project will support prevention of drop-outs from education, whereas the activities of the project creates an attractive teaching and learning results which will ensure and increase motivation for learning.

LLP Grundtvig Partnership project Fostering Cultural Heritage for bridging intergenerational dialogue“ (FOCAL) (LLP-GRU-MP-2012-LT-00169) – coordinated by VšĮ "eMundus". The project aimed to explore and reveal similarities and differences between countries, exchange of cultural experience, present the culture and maintain intergeneration dialogue between youth and seniors.

LLP Leonardo da Vinci Partnership project “Comparison of Occupational Healthy and Safety Policies and Conditions in EU Countries and Adaptation of Good Practices at VET Schools” (Co-Safe) (LLP-LdV-PRT-2011-LT-0240) VšĮ "eMundus" was associated partner (official partner in Lithuania was VšĮ IMOTEC), participated in activities development. Co-SAFE focused on raising awareness and knowledge in the field of Occupational Health and Safety (OHS) for target group (administrators, trainers, trainees and teachers who are concerned with this field). The project mainly concentrated on comparison of VET systems and practices, Occupational Health and Safety (OHS) trainings and implementations at institutions which provide VET services and EU policies related to the topic in participant countries. The aim of cooperation among participant countries was to increase knowledge of not only for the project participants but also the other parties of VET institutions.

Contributions that can be provided to the project

- Local administration of the project activities and finances ensuring correct management, as well fluent collaboration with project coordinating and managing institutions
- International cooperation and reports
- Involvement of kindergartens, schools other associated partners of the project and ensuring collaboration with them.
- Participating in research in project area
- Producing needed reports
- Actively participating in project dissemination, evaluation, quality ensuring activities
- Developing project results

Reasons of involvement in the project

Project activities which we are going to develop and results which we are going to achieve are important for VšĮ "eMundus" as institution (collaboration in international level, experience, as well from the content point of view, as well better and wider collaboration with local kindergartens and schools which we are going to be involved into project as beneficiaries) and for personnel who collaborates with different educational

institutions including beneficiaries.

It is important to deepen the knowledge and to get known more about how to improve the cooperation between kindergartens in international level in purpose to develop common result and exchange the experience, best practise which directs to the better and improved educational process and teachers qualification.

As well personnel will deepen the knowledge in international collaboration and communication activities (into project activities we are going to involve administration personnel, lecturers).

Contact Person's Experience and Expertise

Vida Drąsutė - director of the institution.
