

Practical Activity 2: Downloading music and effects

Description of the Practical Activity: In this practical activity we are going to explore Internet to download music and sound effects.

The first web page we recommend is Jamendo (<https://www.jamendo.com/>). We can search in the free section for groups, styles, topics, tags...

The screenshot shows the Jamendo Music website interface. On the left is a dark sidebar with navigation links: Home, Explore, Radios, Selections, 2017 In Review, Create account, Log in, Lost password, Upload, Licensing, Developers, Help center, Contact us, Apps, About us, Jobs, Legal, and social media icons for Facebook, Twitter, Google+, and Instagram. The main content area has a search bar at the top with the text "Search for independent music". Below the search bar, it says "FREE STREAMING / FREE DOWNLOAD". There are two dropdown menus: "BEST OF" and "ALL GENRES", and a red "PLAY ALL" button. A list of music tracks is displayed, each with a play button icon, the track name, the artist name, and icons for heart, share, playlist, and download. The tracks listed are: "Strong" by JEKK, "IDK" by THE DLX, "Rise" by MARTINEZ, "These Days" by PURE MIDS, "James Alley Blues" by TONY PETERSEN, "Games" by TONY PETERSEN, "After All I've Done" by ALWAYS THE ALIBI, "Be Cool" by BIG INFINITE, "I Love How You Loved Me" by ALWAYS THE ALIBI, and "Ain't Another Girl" by ALWAYS THE ALIBI. A "MORE" button is at the bottom right of the list.

Let's search happy instrumental music and scary songs for use in the video. You can download it directly in mp3 ready to use in your project.

The second web page is <http://bbcscfx.acropolis.org.uk/>. We have a simple search field and we can find every sound effect we need.

These 16,000 BBC Sound Effects are made available by the BBC in WAV format to download for use under the terms of the [RemArc Licence](#). The Sound Effects are BBC copyright, but they may be used for personal, educational or research purposes, as detailed in the license.

For commercial use, you can buy individual sound effects [here](#)

Access dataset metadata by visiting our dedicated [LOD site](#). If you have any queries regarding usage, please contact [jake.berger at bbc.co.uk](mailto:jake.berger@bbc.co.uk)

Let's search a door closing, a cat and a funny bounce sound.

Try to find other resource pools of free sounds and think about quality of the browser, time expended searching, need to adapt the sound.
