

### **Practical Activity 1: The Travelling Book**

**Description of the Practical Activity “The travelling book”:** The book will be called "a day in the life of ..." This activity will consist in making a book among all the children and their families.

Every weekend the book will go to a pupil's home and they will fill it in with information, telling what they've been doing on that weekend, adding photos, writing down anecdotes, explaining what family members have they been with, etc. It will be decorated with collaboration between the family and the children themselves, so it is a very nice shared work, in which everyone can have fun.
